

Support Tools & PCB Carriers and Wave Solder Pallets

SUPPORT TOOLS

AWS Elektrotechnik supplies PCB support tools made from aluminium, in various designs.

Benefits:

- Increased stencils life
- Avoid short circuits and paste residue
- Improved print quality

Available materials:

- Aluminium EN6082 T651

Technical data:

- Applicable PCB Max size: 550mm / 450mm
- Thickness: 12.5mm-29mm
- Nature anodized

PCB CARRIERS and WAVE SOLDER PALLETS

AWS Elektrotechnik supplies PCB carriers and wave solder pallets used for protection, support and transport of PCBs of different sizes and shapes, including flex and rigid-flex PCBs, through the entire SMT process.

Available materials:

- Durostone
- Ricocel
- FR4

Technical data:

Material thickness: 3mm to 10mm.

- anti-static nature
 - good mechanical properties
 - none of the hazardous substances specified in the RoHS directive
 - excellent heat-resistance (max. 300-350 °C)
 - good dimensional accuracy and low deformation
-
